

# COVID-19 (2019 Novel Coronavirus) Quick Stats (Preliminary Numbers, Subject to Change)

Updated 4/23/2020

- There were 2,482 cases from 74 counties with 112 deaths reported as of 9:45 a.m.
- There have been 442 of 2,007 cases that have been hospitalized.
- There have been 18,836 negative tests conducted at KDHE and private labs.
- Age range is 0 years to 99 years (median 50 years)
- There have been 569 positive tests at KHEL and 1,913 at private labs.
- 1,246 cases are female and 1,277 are male and 9 unknown.

We also anticipate seeing an increase in the next several days for areas in Western Kansas due to the new testing strategies implemented. There may be delays with those county numbers being reflected in KDHE's total due to the additional time it's taking to enter the lab reports.

county	Case_Count
Atchison County	8
